INDEX TO VOLUME XIII

Page numbers preceded by "(P)" refer to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists.

A

Absorption tests in lymphosarcoma, chronic lymphocytic leukaemia and some related conditions, 440
Acid-fast bacilli, atypical, serological specificity of, (P) 536
Actinomycosis, punch, (P) 536
ADAMS, K. M.: A rapid method of bleeding mice, 265
Adenocarcinomata, human gastric, proteinase activity of extracts of, 349
Adenoma, parathyroid, with misleading phosphate excretion tests, 494
Adrenalin infusion, effect of, on plasma concentrations of antihaemophilic globulin, (P) 271
Agar gel, photographic recording of precipitin bands in, 87
ALCOCK, N., MACINTYRE, I., and RADDE, I.: The determination of magnesium in biological fluids and tissues by flame spectrophotometry, 506
ALDER, V. G., and GILLESPIE, W. A.: Control of staphylococcal cross-infection in three surgical wards, (P) 535
ALEXANDER, R. F., and SPRIGGS, A. I.: The differential diagnosis of tumour cells in circulating blood, 414
ALLEN, G. T. *See* SWAN, A., ALLEN, G. T., and TANNER, N. C.
Aluminium powder, pulmonary fibrosis after exposure to, (P) 273
Aminoaciduria and megaloblastic anaemia, 230
Ammonia in blood, new approach to estimation of, (P) 541
Ammonium phosphate method for determination of magnesium, 358
Amoebiasis, indigenous, (P) 538
AMOS, J. A. S.: Polycythaemia vera and Christmas disease with slightly prolonged prothrombin time, 299
Anaemia, buccal mucosa in, 463
— in pregnancy, further studies of, (P) 274
— megaloblastic, and aminoaciduria, 230
— — associated with pregnancy, absorption of vitamin B_{12} in, 394
— post-natal, in erythroblastosis, (P) 537
Anaemias, simple ("cold") haemolytic, antibody of blood-group specificity in, 232
Angiosarcoma of the heart, 205
Antibody, of blood-group specificity in simple ("cold") haemolytic anaemias, 232
— penicillin, 51
"Anticoagulant," haemorrhagic disorder in pregnancy due to, 214
Anticoagulant therapy, modified Quick's one-stage test for control of out-patients on, 176
— — simplification in the estimation of "prothrombin time" for, 102
Anti-D serum, albumin agglutinating, Rh typing with, 175
Antifibrinolytic activity in pregnancy, 220, 224
Anti-gamma-globulin consumption test in Hashimoto's disease, 448
Antihaemophilic globulin, plasma concentrations of, (P) 271
Antiheparin activity of serum and thrombosis, 226
Arteries, foetal, stress zones in, 133
— peripheral, influence of mechanical factors on structure of, 199
ASHLEY, D. J. B., and BRINDLE, M. J.: Penicillin resistance in staphylococci isolated in a casualty department, 336
Aspergillus, tissue reactions to, in cases of Hodgkin's disease and leukaemia, 396
Association of Clinical Pathologists: 64th General Meeting, 271
— 65th General Meeting, 535
— Broadsheets, 186
Asthma, pathology of, with special reference to changes in the bronchial mucosa, 27
Atherosclerosis, structure of peripheral arteries and localization of, 199
Autoanalyser, first experience with, (P) 274
Auto-antibody in simple ("cold") haemolytic anaemias, 232
Auto-immunity, thyroid, 499

B

BAAR, S.: The development of an acquired haemoglobin abnormality caused by thermal injury, 112
BACHRACH, U.: A simple and rapid technique for the identification of Proteus-Providence strains, 525
Bacillus anthracis, capsulated, new method of demonstrating, 526
BAKER, S. J., and JACOB, E.: A haemorrhagic disorder in pregnancy due to an "anticoagulant" preventing the conversion of fibrinogen to fibrin, 214
Barium sulphate suspensions, standard, 85
BARON, D. N.: Serum transaminases and isocitric dehydrogenase in kwashiorkor, 252
Basophils in human and rat pituitary, buffered performic-acid-alcian-blue-periodic-acid-Schiff method for differentiation of, 256
BATE, J. G.: Hospital vacuum cleaner as a subject of laboratory study, (P) 272
BEASLEY, W. H.: The blood groups of gastric ulcer-cancer, 315
BECK, A.: Investigations of the serological specificity of atypical acid-fast bacilli, (P) 536
BEHAR, M. *See* BORNSTEIN, B., BOSS, J. H., CASPER, J., and BEHAR, M.
Bence Jones proteins, biological significance of, 58
Bentonite flocculation test, 325
Berylllium and nickel workers, pathology of lungs in, (P) 273
BETTER, F. C. *See* OWEN, J. A., BETTER, F. C., and HOBAN, J.
BIEZENSKI, J. J.: Antifibrinolytic activity in normal pregnancy, 220
BILLIMORIA, J. D. *See* JAMES, D. C. O., DRYSDALE, J., BILLIMORIA, J. D., and MACLAGAN, N. F.
Biopsy, intestinal, in coeliac disease, (P) 275
— pleural, in bronchopulmonary carcinoma, 425
BIRD, G. W. G.: Penicillin antibody, 51
Bleeding mice, rapid method of, 265
Blood, alpha amino nitrogen in cerebral palsy, 511
— ammonia in, new approach to estimation of, (P) 541
— capillary, coagulation tests on, (P) 275
— cell counter, Eel electronic, improved white cell diluent for use with, 249
— cell counter, electronic, in a routine laboratory, (P) 537
— circulating, differential diagnosis of tumour cells in, 414
— coagulation, effect of heparin on early stages of, 93
— coagulation, effect of magnesium on, 99
— constituents, effects of posture on some, 304
— oxygen, spectrophotometric method of estimating, using the unicam SP 600, 361
— *p*H estimation, technique of, 173
— serum, simultaneous determination of calcium and magnesium from same sample of, 160
— survival technique for obtaining large volumes of, from rodents, 264
— total white cell count, as indicator of acute radiation damage, 37
— transfusion, 182
— volume and plasma protein levels before and after gastrectomy, (P) 540
Blood-group specificity, antibody of, in simple ("cold") haemolytic anaemias, 232
Blood groups of gastric ulcer-cancer, 315
Bone marrow grafting in man, application and implications of, (P) 275
— rationale of, 275
Bone marrow transplantation, 182
BONNIN, J. A., HICKS, N. D., INNES, M. D., and SIMPSON, D. A.: Multiple congenital coagulation deficiencies, 311

Calcium and magnesium, simultaneous determination of, from blood serum, 160
Cameron, A. H.: Intestinal biopsy in coeliac disease, (P) 275
Cameron, J. M.: Further observations on tumours of salivary tissue, (P) 537
Cancers, multiple primary, 483
Candler, improved egg, for virus work, 364
Capillary blood, coagulation tests on, (P) 275
Capillary tube method of Rh typing using albumin agglutinating anti-D serum, 175
Caplan, A.: Pneumoconiosis and rheumatoid disease, (P) 272
Carcinoma, bronchopulmonary, diagnostic value of pleural biopsy in, 425
Carcinomas and lymphomas, primary malignant, in intestinal tract of the same patient, 483
Cardiac and respiratory disease, relation of serum uric acid to haemoglobin level in, 502
Casper, J. *See* Bornstein, B., Boss, J. H., Casper, J., and Behar, M.
Casualty department, penicillin resistance in staphylococci isolated in, 336
Catheter, role of, in causing urinary tract infection in pregnancy and puerperium, (P) 537
Cell volume, packed, determination of, 529
Central nervous system, investigation of virus infections of, (P) 535
Cerebral mucormycosis diagnosed in life, with eventual recovery, 34
Cerebral palsy, serum proteins and blood alpha amino nitrogen in, 511
Cerebrospinal fluid, lumbar and ventricular, true glucose content of, 82
Children, isolation and identification of *Haemophilus* spp. from unusual lesions in, 519
Christmas disease and polycythaemia vera with slightly prolonged prothrombin time, 299
— — diagnostic difficulties in, 475
Chromatography, ion-exchange, separation and determination of some basic substances in urine by, (P) 541
Chromoblastomycosis simulating rhinosporidiosis in a patient from Ceylon, 287
Coagulation and its disorders, 181
— deficiencies, multiple congenital, 311
— in ischaemic heart disease, (P) 541
— tests on capillary blood, (P) 275
Coeliac disease, intestinal biopsy in, (P) 275
Cold haemoglobinuria, syphilitic paroxysmal, 237
Colicine typing of coliform bacilli in study of cross-infection in urology, 168
Coliform bacilli, colicine typing of, 168
Collagen diseases, excretion of 3-hydroxyanthranilic acid in, 140
Colloquium (VIIIth) on Protides of Biological Fluids, 182
